Texas A&M University-Commerce has increased enrollment 64.4% since Fall 2000 and has reached 82% of its ambitious Closing the Gaps goal of 15,000 students in Fall 2015. The university has reached 92% of its goal for African-American student enrollment and 48% of its goal for Hispanic student enrollment. However, it should be noted that the Hispanic student population has increased 369.3% since 2000 due to its strategic plan goal to become a Hispanic-Serving Institution.

**Full-Time Equivalent Enrollment**

**2. Fall semester credit hours (SCH) includes undergraduate(15), master's(12), doctoral(9), special-professional(12), and optometry(17).**

<b>Total FTSEs</b>	<b>5,118</b>	<b>8,081</b>	<b>8,833</b>	<b>72.6%</b>
<b>State-Funded FTSEs</b>	<b>5,117</b>	<b>7,767</b>	<b>8,477</b>	<b>65.7%</b>

NOTE: The percentage change is based on the actual FTE numbers and may vary slightly from the calculation produced by the rounded numbers. Post-baccalaureate students are counted separately from master's for headcount enrollment and are counted with master's for FTE enrollment calculations.

The increase in full-time student equivalents (FTSEs) has increased 72.6% since Fall 2000 and state-funded FTSEs has increased 65.7%. The difference between the two is attributed to the large number of online, out-of-state students who do not count for state funding.

# Higher Education Accountability System

## Participation - Out-of-State Peers

Out-of-state peer data is from the Fall 2014 IPEDS report and may not match accountability data because of differences in the source of the data. Accountability measures are primarily derived from institutional data sent to the CB for CBM reports. Data reported on this out-of-state peer link is obtained from the IPEDS system of institutional reporting to the federal government. Data differences may result from different reporting periods and different definitions for the data elements.

A&M-Commerce has traditionally appealed to first-generation and non-traditional students who often take longer than four years to complete the baccalaureate degree. Institutional efforts have been made to increase retention and subsequent 4-, 5- and 6- year graduation rates, and the trends are generally positive in these areas.

Although A&M commerce experienced a slight decrease in degrees awarded between FY2014 and FY2015 in the graduate level categories, the institution has experienced a steady increase in the number of undergraduate degrees awarded from FY2000 to FY2015. Substantial increases have been made in the number of degrees awarded to minority students, during this same time period. A&M-Commerce continually strives to increase the number of degrees awarded.
