Professional Profile

I teach Music Theory II & Ear Training II at Texas University - Commerce and taught piano class as an Adjunct Faculty and work as an accompanist at Collin College now. Also I have been teaching as a private piano teacher and an instructor at music school for over 25 years. I've taught students from various ages and diversities. My lesson is for music majors and non music majors, so it was very flexible and approached each student's needs. Also, I play as a pianist at live music scenes in DFW in various settings such as solo pianist, Jazz band and Salsa band. I am able to play different genres of music like Classical, Jazz, Latin, Afro-Cuban and pop. As my teaching and accompanying experiences tell you, I'm a very hard worker and versatile person that cooperates well with others.
