

Institutional Effectiveness Leadership Team Information | Cycle 21-22 Results and 22-23 Plans

Institutional Effectiveness Leadership Team

Under the direction of the Executive Director of Institutional Effectiveness and Research, the Department of Institutional Effectiveness and Research accomplishes planning for effectiveness by overseeing the Institutional Effectiveness Leadership Team, which facilitates the annual assessment of goals and student learning outcomes. Within each of the colleges and divisions, at least one faculty or staff member-designated IE Author has been assigned per academic program or support unit to document assessment findings from the previous academic year and update assessment plan information for the upcoming academic year. Each college and division is represented on the IE Leadership Team by at least one IE Representative. The IE Representative coordinates the efforts of the IE Authors and provides guidance in the process of completing annual assessment (IE) reports.
