

IE Assessment: Two Column Report

Administrative/Support Plan - Sample 2

Service Satisfaction

Goal Statement: Visitors to University locations will be satisfied with the service they receive.

Goal Status: Active

Planned Assessment Cycle: 2019 - 2020, 2020 - 2021, 2021 - 2022, 2022 - 2023, 2023 - 2024

Assessment Method

Assessment Method Status: Active

Assessment Type: Survey

Assessment Method: Dining Services will distribute a survey via Qualtrics in November of each academic year to all faculty, staff, and students. The survey will assess satisfaction and feedback on dining services and food offerings. The Director of Dining Services is responsible for distributing the survey and collecting the results.

Satisfaction questions will be rated on a four point scale: 1= Very Dissatisfied; 2= Dissatisfied; 3= Satisfied; 4 = Very Satisfied

Standard of Success: 95% of survey respondents will indicate that they are "Satisfied" or "Very Satisfied" with the service they receive at on-campus dining locations.

Notes: Increased from 80% to 90% in March 2021- met every year

increased from 90 to 95%---

Result

Result Date: 04/26/2023 Reporting Period: 2022 - 2023

Result: Survey results showed that 92% of respondents were satisfied or very satisfied with services. 370

surveys were completed from 802 monthly users.

Conclusion: Standard of Success Not Met

If you implemented an action plan/modification in the prior year, please describe what impact it had on the results.: The survey's additional question added in Fall 2022 to gauge users satisfaction with a new dessert vending service indicated a 91% response of satisfied or very satisfied with service.

Action/Use of Results: Although the second year for not meeting 95% standard of success, a 2% increase indicates a gradual improvement toward achieving goal so will leave standard as is.

Assessment Type: Survey	Reporting Period: 2022 - 2023

Assessment Method

Assessment Method: Dining Services will distribute a survey via Qualtrics in November of each academic year to all faculty, staff, and students. The survey will assess satisfaction and feedback on dining services and food offerings. The Director of Dining Services is responsible for distributing the survey and collecting the results.

Satisfaction questions will be rated on a four point scale: 1= Very Dissatisfied; 2= Dissatisfied; 3= Satisfied; 4 = Very Satisfied

Standard of Success: 80% of survey respondents will indicate that they are "Satisfied" or "Very Satisfied" with the quality of food available at on-campus dining locations.

Result

Result: 80% of respondents indicated that they are Satisfied or Very Satisfied with quality of food available at on-campus dining locations. (n=420). 337 of the respondents were satisfied or very satisfied, but 84 responded negatively. Additional question items show a similar satisfaction rate for various dimension of food offerings, with variety being rated slightly lower (78%).

Conclusion: Standard of Success Met

If you implemented an action plan/modification in the prior year, please describe what impact it had on the results.: Based on staff fall kick-off meeting to review survey data, the largest area of dissatisfaction with the cold cuts station was resolved with its cleaning and revamping by Spring 2022, as planned.

Action/Use of Results: na

Result Date: 08/16/2022 **Reporting Period**: 2021 - 2022

Result: 75% of respondents indicated that they are Satisfied or Very Satisfied with quality of food available at on-campus dining locations. (n=400). 300 of the respondent were satisfied or very satisfied, but 100 responded negatively. Additional question items show a similar satisfaction rate for various dimension of food offerings, with freshness being rated slightly lower (80%).

Conclusion: Standard of Success Not Met

If you implemented an action plan/modification in the prior year, please describe what impact it had

on the results.: N/A

Action/Use of Results: Action Date: 08/16/2021

Action/Use of Results: Staff will meet at the fall kick-off meeting to review survey data. It looks like the largest area of dissatisfaction was the cold cuts station, which is being cleaned and revamped, with a target completion date of Spring 2022.

Result Date: 04/06/2020 **Reporting Period**: 2019 - 2020

Result: 83.39% of respondents indicated that they are Satisfied or Very Satisfied with quality of food available at on-campus dining locations. (n=584) Additional question items show a similar satisfaction rate for various dimension of food offerings, with freshness being rated slightly lower (80.14%).

Conclusion: Standard of Success Met

If you implemented an action plan/modification in the prior year, please describe what impact it had on the results.: This is the second cycle in which food quality has met the standard of success for satisfaction. Steps taken in recent years to purchase more local ingredients, to broaden the variety of choices available, and to bring the menu items up to date seem to be achieving their intended effect.

	1 ·1··· 8 · · · · · · · · · · · · · · ·

Assessment Method

Assessment Method: Incoming freshmen who self-identify specific dietary restrictions will be tested during orientation for their knowledge of where to access food options which meet their dietary needs. These students will be tested again at the close of the Fall semester, by a question set distributed along with the Dining Services Satisfaction Survey.

The Director of Dining Services is responsible for distributing the post-test along with the annual satisfaction survey and collecting the results. The Director will also work with the Orientation Office to distribute the pre-test during orientation.

Standard of Success: 70% of students responding to the post-test will be able to correctly answer 3 out of 5 items testing knowledge of how to access food which meets their dietary needs.

Notes: This is the first cycle in which results will be collected. Results will be used to set a benchmark.

Result

Result: 33 students from the 2019 incoming freshman class who were pre-identified with dietary restrictions responded to post-test items distributed along with the Dining Services Satisfaction Survey. 66% of respondents were able to correctly answer 3 or more out of five questions testing knowledge of where to access food options which meet their dietary needs. This is close to, but not meeting, the 70% standard of success.

For comparison, in the pre-test (n=52) only 30% of respondents were able to correctly answer 3 or more out of five questions testing knowledge of where to access food options which meet their dietary needs. Post-test results show a gain over the pre-test indicating that students have become better educated over the course of the semester about where to access the foods they need; however, they may still lack some information needed to have a highly satisfying dining experience.

Conclusion: Standard of Success Not Met

If you implemented an action plan/modification in the prior year, please describe what impact it had on the results.: This is the initial administration of this assessment.

Action/Use of Results: Action Date: 04/06/2020
